

Criterion 4- Infrastructure and Learning Resources

4.2 Library as a learning Resource

4.2.1 Library is automated using Integrated Library Management System (ILMS).

(Data required for the last five years.)

Upload a description of library with,

*Name of ILMS software

*Nature of automation (Fully/partially)

*Version

*Years of automation

Response :

The library of the college is fully automated by using Integrated Library Management System (ILMS) with its current version of V 1.0. The library of the institution is using the SOFTLIBRARY Software from 2017-18. SOFTLIBRARY is the library management software developed and powered by Shiv.com Technology, Navi Mumbai. It is continuously used by the library to enter the new arrivals. The barcode system helps to preserve the data related to the book in the Integrated Library Management System that is used to track the book in future in one click. The barcode helps to check in and check out of the books for their availability status, besides the borrowing history of the book. However, apart from its library access number, the user can access the book with the keys like author of the book, publisher of the book, subject of the book etc. It has tremendous impact to access the information to its user. Library has two computers with internet broadband connectivity with 100 MBPS. One computer is provided for the use of students and one computer is used by the library staff. Reprographic facility is also provided in the library that serves students, teachers, and the college office.

Library Automation & Software 2022-23

Name of Software	Nature of Automation	Version	Year of Automation
Softlibrary	Fully	Soft.Library.V1.0	09 Jan 2017to 2022
